CAREER OBJECTIVE

I am a passionate and eager learner committed to tackling real-world challenges through technology. Aspiring software developer with strong skills in programming, system design, and AI/ML. Interested in building scalable digital products, purchase experiences, and reader applications while applying engineering best practices.

EDUCATION

B.Tech in CSE (AI & ML) **2024-2027**
ACE Engineering College, Hyderabad
CGPA: 8.5
Diploma in Electronics and Communication **2021-2024**
Government Polytechnic College, Gadwal ,India
CGPA:9.6
SSC in General **2020- 2021**
Zilla parishad high school Indiranagar, Siddipet
GPA:10.0

CERTIFICATION AND ACHIEVEMENTS

National Level Workshop on DevOps, ORBIT Learning
Certificate of Completion of Learning C Programming in CODECHEF
Certificate of Completion of Learning PYTHON Programming in GEEKSFORGEEKS
Certificate of Completion of Introduction to Networks in CISCO Network Academy
Certificate of Completion of Switching, Routing and Wireless Essentials in CISCO
Certificate of Completion of Enterprise Networking, Security and Automation in CISCO
Diamond Badge received for solving 1000 Problems in CODECHEF (ViewProfile)

PROJECTS

SYSTEM DESIGN FOR COLLEGE REVIEWS USING SENTIMENTAL ANALYSIS

Designed and implemented a scalable system to analyze large volumes of student reviews using NLP techniques.
Applied service design principles by modularizing preprocessing, sentiment classification, and visualization components for long-term extensibility.
Classified feedback as positive, negative, or neutral, helping students make informed decisions.
Built a prototype web interface, simulating a digital product review platform accessible across multiple surfaces (desktop browser, mobile browser).
Designed the interface to resemble a reader application, allowing students to read and interpret reviews easily across web and Android surfaces.

SKILLS

Technical Skills:
Java, Python, C, OOPS, SQL, Java APIs, Unit Testing, Data structures and Algorithms
System Design and Architecture:
Scalable Architecture, service design, Long-term Design, Modular Development
Tools & Platforms:
Git, GitHub, VS Code, Eclipse, JDK, JVM, Command Line/Terminal, MS-Word, Google Collab
Soft Skills:
Problem Solving, Decision Making, Critical Thinking, Team Collaboration, Communication, Collaboration

LANGUAGES

Telugu
English
